Supervision That Supports Wellbeing

When work involves supporting others, having space to reflect makes a difference.

The NCPS Workplace Supervision Hub is a purpose-built platform, hosted by Paranimo and powered by Matchifi, that helps individuals find and connect with the right supervisor for their needs. It provides access to independent, external, non-clinical supervision.

It offers a confidential online space where your team can debrief and put down what they've been carrying before it affects their wellbeing or performance.

Delivered by NCPS registered supervisors, the Hub is set up for you, easily managed by you, and flexible to adapt to your organisation's needs.
